

# Conference timetable: 7.05.2026

| Lp.                                                                | Event                                                                                                                                                                                                                 | Time [min] | Hour [h]    | Other |
|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|-------------|-------|
| 1.                                                                 | Registration and reception                                                                                                                                                                                            | 20/10      | 8.00-8.30   |       |
| <b>Session No 1</b>                                                |                                                                                                                                                                                                                       |            |             |       |
| <b>Pharmaceutical solutions as drug delivery systems</b>           |                                                                                                                                                                                                                       |            |             |       |
| 2.                                                                 | <b>Lipo-Hydrophilic Modifications of Compounds and Effect on Solubility and Activity.</b> Josef Jampilek. Department of Analytical Chemistry, Faculty of Natural Sciences, Comenius University, Bratislava, Slovakia. | 40         | 8.30-9.10   |       |
| 3.                                                                 | <b>Electrochemical evaluation of pharmaceutical systems – an approach to the assay of release kinetics measurements.</b> Witold Musial. Wroclaw Medical University, Wroclaw, Poland.                                  | 20         | 9.10-9.30   |       |
| 4.                                                                 | Discussion                                                                                                                                                                                                            | 5          | 9.30.-9.35  |       |
| 5.                                                                 | Coffee break                                                                                                                                                                                                          | 15         | 9.35-9.50   |       |
| <b>Session No 2</b>                                                |                                                                                                                                                                                                                       |            |             |       |
| <b>Evaluation of aqueous pharmaceutical systems</b>                |                                                                                                                                                                                                                       |            |             |       |
| 6.                                                                 | <b>Engineering materials for nonenzymatic glucose sensors.</b> Mahabubur Rahman Chowdhury. Department of Chemical Engineering, Cape Peninsula University of Technology, Symphony Way, Bellville 7535, South Africa    | 40         | 9.50-10.30  |       |
| 7.                                                                 | <b>Assembly and Characterization of Polyelectrolyte Protein Reservoirs on Electrospun Mats,</b> Tomasz Urbaniak, Wroclaw Medical University, Wroclaw, Poland.                                                         | 20         | 10.30-10.50 |       |
| 8.                                                                 | Discussion                                                                                                                                                                                                            | 5          | 10.50-10.55 |       |
| 9.                                                                 | Coffee break                                                                                                                                                                                                          | 15         | 10.55-11.10 |       |
| <b>Session No 3</b>                                                |                                                                                                                                                                                                                       |            |             |       |
| <b>Enhancement of API solubility in aqueous environment</b>        |                                                                                                                                                                                                                       |            |             |       |
| 10.                                                                | <b>Increasing the solubility of nanoparticles in medicinal formulations.</b> Sourav Bhattacharjee. University College Dublin, School of Veterinary Medicine, Belfield, Dublin, Ireland.                               | 40         | 11.10-11.50 |       |
| 11.                                                                | Discussion                                                                                                                                                                                                            | 10         | 11.50-12.00 |       |
| 12.                                                                | Lunch break                                                                                                                                                                                                           | 75         | 12.00-13.15 |       |
| <b>Session No 4</b>                                                |                                                                                                                                                                                                                       |            |             |       |
| <b>Complex aqueous systems – between emulsions and suspensions</b> |                                                                                                                                                                                                                       |            |             |       |
| 13.                                                                | <b>Liposomes: a pivotal drug delivery strategy. Analytical, technical and regulatory challenges.</b> Carla Caddeo. Università degli Studi di Cagliari, Italy.                                                         | 40         | 13.15-13.55 |       |
| 14.                                                                | Discussion                                                                                                                                                                                                            | 10         | 13.55-14.05 |       |
| 15.                                                                | Coffee break                                                                                                                                                                                                          | 30         | 14.05-14.35 |       |
| <b>Session No 5</b>                                                |                                                                                                                                                                                                                       |            |             |       |
| <b>Students and Young Researchers Forum</b>                        |                                                                                                                                                                                                                       |            |             |       |
| 16.                                                                | Presentations of the student and young researchers.                                                                                                                                                                   | 10         | 14.35-14.45 |       |
